

BOERS WILL RESIST AT MODDER RIVER

Have Destroyed the Bridge
and Entrenched Them-
selves Strongly.

JOUBERT IN COMMAND

President Steyn Is Concentrat-
ing Free State Forces At
Kronstadt.

Mafeking Is Still Under Investment and
There Is No Hope That Plumer Is
Strong Enough to Raise the Siege—
Inducement For British Soldiers to
Locate In Africa—Russia, France
and Germany Said to Favor Inter-
vention.

Bloemfontein, March 20.—[Special
Cablegram]—The Boers have destroyed
the bridge and entrenched themselves on
the banks of the Modder River, four-
teen miles north of here. Gen. Joubert
is reported to be in command.

It is reported that President Steyn
has sent special envoys to the various
towns in the Free State with the object
of reforming the scattered commands
and concentrating them at Kronstadt.

Mafeking Still Besieged
London, March 20.—[Special Cable-
gram]—The war office gives out its daily
denial that Mafeking has been relieved.
Officials say there is no reason to expect
it soon unless the Boers deliberately
abandon the investment. Apparently
from this opinion the war office does not
think Plumer's force, which is within a
few days' march from Mafeking, is
strong enough to raise the siege.

The Brussels correspondent of the
Post says that Leyds, the Transvaal rep-
resentative, has been invited to address a
pro-Boer meeting in England.

It is stated that the government will
offer two hundred and forty acres of
land in South Africa to all British sol-
diers now there, on which to settle after
the war is over.

Russia May Intervene
Berlin, March 20.—[Special Cable-
gram]—The Lokal Anzeiger at St.
Petersburg says: "Russia's answer to
Kruger's appeal for intervention will be
made public shortly in the form of an
official note. It will be directed against
England and is of a serious tone and
will make a profound sensation. The
note is issued with the full knowledge
of France and Germany."

Rebels Surrender Arms
Cape Town, March 20.—[Special
Cablegram]—Gen. Kitchener entered
Prieska today. Prieska is the center
of the disaffected district. He was not
opposed. The loyalists have him an en-
thusiastic reception and hundreds of
the rebels surrendered their arms.

All London Made Lies
New York, March 20.—[Special]—
Lauter Wessels an official agent in the
United States for the Boer widows and
orphans relief fund in an interview today
said:

"All these stories about the faint
heartedness of the Free Staters are Lon-
don made lies. The war is not yet over.
We don't expect to hold the British
back, but they are a long way from Pre-
toria yet. If the United States would
say 'stop' France and Germany would
be only too glad to second the motion."

STILL NO NEWS FROM MAFKING
But Semi-Official Rumors Persist That It
Has Been Relieved

London, March 20.—The war office
had no news up to 2 o'clock Tues-
day morning confirming the relief of
Mafeking, but George Wyndham, parlia-
mentary under secretary for war, re-
plying to a private inquiry in the lobby
of the house of commons about mid-
night, smilingly said: "I think that it
is all right."

The Free Staters seemingly have not
quite collapsed. They are in consid-
erable force around Smithfield, though
much dispersed. A British spy from
Rouxville reports that Commander Oli-
vier and a commando are going to
Kronstadt. Kronstadt is 137 miles
from Bloemfontein. It is surrounded
by a country of hills and jungles.

Gen. Gatacre is now resting at
Springfontein, preliminary to joining
Lord Roberts. Gen. Buller's hill work
before Ladysmith has given him an
experience which is about to be used
in forcing the Baggersberg range. It
is believed that 25,000 of his 40,000 men
are about to engage Gen. Botha's force,
and the next news of fighting will
probably come from Natal.

There was no fresh report from Lord
Methuen at midnight, but military men
were convinced that his column would
not meet with serious resistance be-
yond the Vaal river. The distance is
long, but the country is open, with few
streams where any delay will be caused
by receding bridges. Vryburg is the

only town of any size on the way to
Mafeking, and the Dutch are believed
to have evacuated it already.

Lord Roberts clearly is not in haste
to advance northward, when every day
witnesses large desertions from the
Dutch commandos and the surrender
of rifles. He was unable last night to
report additional seizures of artillery,
and the alarmists who were making a
wild outcry a few weeks ago about the
Dutch guns' superior range would be
greatly relieved if some of these
Krupps and Creusots could be discov-
ered. Sir John Ardagh may be vin-
dicated in the end by the failure of the
British staff to find the guns which
his critics thought he ought to have
reported before the campaign opened.

Thirty-two thousand additional
troops are at sea bound for South Af-
rica.

PEASANTS DROWNED IN DANUBE AT PAKS

Vienna, March 20.—[Special Cable-
gram]—Twenty-five peasants were
drowned today while crossing the Dan-
ube at Paks.

M'KINLEY TO BE A PROFESSOR OF LAW

New Job For the President When He
Retires From Office Six
Years Hence.

Millville, N. J., March 20.—Bishop
Hurt in his sermon at the opening of
the session of today's M. E. con-
ference, in speaking of the American
University at Washington, said that
President McKinley would at the con-
clusion of his services as a public officer
accept the position of professor of inter-
national law at the University.

PLAN A PLACE FOR GENERAL WHEELER

May be Assigned to Command of the
Department of the Lakes
at Chicago.

Washington, March 20.—[Special
Telegram]—It is reported that Gen.
Wheeler will be assigned to the com-
mand of the department of the lakes
with headquarters at Chicago. No
action has yet been taken upon his
resignation.

JAPAN EXPECTS WAR WITH RUSSIA

Mikado's Navy Will Begin Secret
Maneuvers About the
End of March

Yokohama, March 20.—[Special Cable-
gram]—The Japanese navy will begin
secret maneuvers about the end of
March which fact gives currency to the
rumors that Japan expects war with
Russia in the near future.

LIBERTY LEAGUES FORM IN KENTUCKY

Taylor Resolves To Hold On to the
State House with an Armed
Force.

Frankfort, Ky., March 20.—Prompted
by the advice of their leaders, the re-
publicans have begun the organization
of bands of men throughout the state,
to be known as "Liberty leagues." They
propose to form one of these so called
"Liberty leagues" in every county in the
state.

Taylor has resolved to hold on to the
executive building and the statehouse at
Frankfort by armed force if necessary
until the supreme court of the United
States can finally pass upon the suit to
determine who is the legal governor of
Kentucky. The republicans, anticipat-
ing an adverse decision in the state
courts, think that the supreme court
will certainly take jurisdiction of the
case on a writ of error from the court of
appeals of Kentucky.

STUDENT DIES OF SMALLPOX.

Disease Contracted While Nursing His
Chum at the Penhouse.

Detroit, Mich., March 20.—Fourteen
of the students of the Detroit College
of Medicine, who a month ago dissected
the cadaver of a negro which had
been shipped in from the south, are
suffering from smallpox. One of them,
Harry Bralley, was taken to the pest-
house, and his roommate, Joseph
Young of Ottawa, Ohio, went there to
nurse him. Bralley recovered slowly,
and was preparing to leave the pest-
house, when Young was stricken with
the disease. Bralley then in turn sat
by the bedside of his roommate and
ministered to his comfort. Young sud-
denly developed alarming symptoms,
and he died before he could write or
leave word to his family.

Insignificant Wounds.

A Berlin physician has written an
article on the dangers resulting from
what are considered insignificant
wounds. For instance, in thirteen
wounds on the thumb, permanent dis-
ability followed in 50 per cent.

BAUMGAERTNER FOR MILWAUKEE'S MAYOR

REPUBLICAN'S NOMINATE HIM
BY ACCLAMATION.

W. H. Stevens For Treasurer and O.
H. Renning For Comptroller.—Resol-
utions Declare In Favor of Muni-
cipal Ownership of All Enterprises
Affecting the City.

Milwaukee, March 20.—The expected
happened at the republican city con-
vention yesterday afternoon when Henry J.
Baumgaertner was nominated for mayor
by acclamation. It was one of the most
remarkable conventions ever held in
Milwaukee, remarkable not only for the
unanimity of sentiment which made it
simply a ratification meeting, but for its
size and the great number of young men
in the delegations. It was almost a
complete change in this respect from
other conventions. The young men
were in control and they put things
through with a snap.

Hinging Resolutions.

Theodore Kronshage, a young Baum-
gaertner lieutenant, was elected chair-
man of the convention by acclamation.
The committee on resolutions pro-
duced a short and vigorous platform, in
which after asserting the unyielding
fidelity of the Republicans of Milwaukee
to the principles of the party and con-
firming the national administration, as-
serted that city government should be in
fact as it now is in theory, separate
from and independent of state and na-
tional political influences; protested
against the use of large influence by
party leaders in securing special legisla-
tion from city council or state legisla-
ture for the promotion of private or
corporate interests at the public ex-
pense; submitted that the most vital in-
terest for the people was the rescue
of the local government from the control
of private corporations dealing in public
utilities, and while favoring public
ownership of public utilities, realizing
that progress in that direction must be
limited by the financial condition of the
city government.

The remainder of the resolutions con-
sisted of a denunciation of the present
Democratic administration for its sins of
omission and commission, among the
last being "flagrant disregard of cam-
paign pledges, contempt of public senti-
ment and defiance of court orders."

Baumgaertner Nominated

The nomination of Baumgaertner was
entrusted to John T. Kelly, who put his
name before the convention in a short,
vigorous and ringing speech. C. H.
Sercomb, in behalf of the Richardson
delegates, moved to make the nomina-
tion unanimous by acclamation and
this was done. Nominations for city
treasurer were called for. There were
but two candidates, Alderman W. H.
Stevens and W. A. Starke. Mr. Stevens
was nominated. H. O. Renning was
nominated by acclamation for comp-
troller.

For Municipal Control

When Mr. Baumgaertner was intro-
duced to the convention he stated that
he was in favor of the fullest municipal
control of municipal public utilities, but
this did not mean that the city was to
rush into this question in such a way as
to disturb interests operated by private
parties, but so that in time these utilities
should gradually be taken under munic-
ipal control.

"No corporation," said Mr. Baum-
gaertner, "either private or otherwise,
need fear unjust treatment at my
hands." "Republican though I be in
soul and fibre," he went on, "I am not
the kind of Republican that would use
party power to betray public trust. I
would not sacrifice the city's interests
to the party. The highest, truest and
best interests of the party are the high-
est, truest and best interests of the
city."

EFFORT TO DODGE PORTO RICO ISSUE

Talk in Washington of Congress Leav-
ing the Matter in the Hands
of McKinley.

Washington, D. C., March 20.—Al-
though the friends of the Porto Rican
tariff bill still claim with confidence they
have enough votes to pass that measure,
there is a great deal of talk today of
dodging the whole issue and placing the
matter entirely in the hands of the pres-
ident.

While the friends of the tariff mea-
sure claim they will win in the long run,
the Republican free-traders in the senate
talked with more emphasis today than
they have done before, and still claim
they will force their opponents to adopt
a measure providing for free trade.

Some of the Republican senators and
representatives, as well as two or three
members of the administration, are try-
ing to find a way out of the Porto Rican
dilemma short of actual legislation for
tariff or free trade.

The bill appropriating the collection
of Porto Rican duties, about \$2,000,000
for the benefit of the island is now in
conference, because the senate refused
to accept it in the form passed by the
house. This presents the possibility of
a compromise. It is thought to be pos-
sible for the conferees to report a mea-
sure which may make unnecessary fur-
ther legislation for Porto Rico at this
season.

GOVERNMENT LOSS IS OVER \$24,000,000

LOUD BILL PROHIBITS ABUSE
OF SECOND CLASS RATES.

Uncle Sam Out of Pocket.—Third-Class
Matter Improperly Registered Last
Year as Second-Class Cost the
Postoffice Department a Tremendous
Sum of Money.

Washington, D. C., March 20.—"The
loud bill," so called, proposes to amend
the postal laws so as to prohibit the
abuse of second-class rates by publish-
ers of advertising sheets, price lists,
cheap fiction and other printed matter
which is registered as "periodicals," and
is therefore allowed to pass through the
mails at the rate of 1 cent per pound.
This bill does not injure legitimate pub-
lishers, but is approved by them, and
committees representing various associa-
tions of newspapers have submitted ar-
guments in favor of its passage.

Was Loosely Drawn

The 1-cent rate was adopted by con-
gress for the benefit of newspapers, mag-
azines and other current publications,
but the law was so loosely drawn that
any printer who issues an adver-
tising sheet, a circus poster, a novel
or anything else in print at stated inter-
vals can take advantage of it and ship
his merchandise through the mails at
the same rates that are charged daily
newspapers.

This is a tremendous burden upon
the government. Last year it cost
\$20,000,000 more to carry second-class
matter than the postage paid upon it,
and if the third-class rate had been col-
lected upon books, advertising sheets
and other publications which were im-
properly registered as second-class mat-
ter, the government revenues would
have been greater by the sum of \$24,-
248,346.

It costs the government 8 cents a
pound on an average to carry this mat-
ter, and it loses 7 cents a pound every
time a shipment is made. For example,
a big printing house in New York sends
out cheap novels once a month to all of
the newsdealers, booksellers and to
many department stores throughout the
country, with an understanding that
they may return all copies remaining
unsold at the end of a certain period.

Loss to the Government.

Their business amounts to thousands
of tons every month. Their shipments
often fill several cars, and as they issue
these publications at stated intervals,
they claim the second-class rate of 1 cent
a pound. Thus the government receives
\$22.40 a ton for the transportation of
their merchandise and pays the railroad
company \$179.20 for carrying it, leav-
ing a net loss to the government of
\$156.80 upon every ton that is shipped.
The newsdealers and department stores
have the right to ship unsold copies back
to the publishers at the same rate.

What is called "the loud bill" amends
the postal laws so as to limit second
class rates to newspapers and genuine
periodicals.

AMERICAN INTERESTS ARE NOT MENACED

Sulzer of New York, Makes an Attack
on Administration in the
House.

Washington, March 20.—[Special Tele-
gram]—The house military committee
held an animated session this morning
the most important matter under con-
sideration being the Sulzer resolution
directing the secretary of war to inform
the house what fortifications Great
Britain is erecting along the northern
frontier of the United States.

A report from the war department
was read to the effect that information
on the subject was private and no good
could result from making it public. The
report further said that American inter-
ests were not menaced. It was decided
to report the resolution to the house
with the recommendation that it be
tabled.

Sulzer, during the debate, said: "The
administration here is more English
than the administration in London. If
this administration had not a few days
ago followed instructions received from
Lord Pauncefoot there would have been
concert of action by the powers in be-
half of the Boers."

When the resolution was presented to
the house it was promptly tabled.

Appointed by the Governor

Milwaukee, March 20.—Angus Mc-
Millan of this city, was today appointed
by Governor Scofield to succeed Thomas
B. Waddell, resigned, as the third mem-
ber of the state board of arbitrators.
The appointment is made on the recom-
mendation of the other members of the
board—George E. Willett of Madison,
and R. H. Edwards of Oshkosh—this
being the provision of law for the ap-
pointment of the third member. Mr.
McMillan is a molder.

Editor John Nagle Sick.

Manitowoc, Wis., March 20.—Editor
John Nagle, who was taken sick with
typhoid fever last Friday, has about an
even chance of recovery. His tempera-
ture is very high, running up to 104
this afternoon. He has been delirious
at times today and his condition remains
about the same this evening. It is
thought he contracted the fever while
on his southern trip with the Wisconsin
editors.

FILIPINOS ARE STILL WAVERING

Waiting to See What Will Be Done by
the Commission.

Manila, March 20.—Great interest is
manifested here in the make-up of and
all the details concerning the new Phil-
ippine commission appointed by Presi-
dent McKinley. The establishment by
Gen. Otis of garrisons in very many
places throughout the archipelago has
undoubtedly had an impressive effect
upon the natives. The people accept
American supremacy and await rather
impatiently an explanation of Ameri-
ca's intentions toward them and the
commencement of practical efforts for
the amelioration of their unsatisfactory
condition. Prominent natives have
been urging Gen. Otis to do something
definite with reference to the form of
government to be established here.

FITZ-SHARKEY FIGHT IS DECLARED OFF

O'Rourke Refuses to Let Sharkey Fight
Before the Westchester
Club.

New York, March 20.—[Special Tele-
gram]—The Fitzsimmons-Sharkey
fight scheduled to come off August first
was declared off this afternoon, because
O'Rourke, Sharkey's manager, refused
to allow his man to fight before the
Westchester club, which had made the
largest bid for the fight.

IT WAS A FAILURE AS A NEWSPAPER

Topeka Daily Capital Says Rev. Shel-
don's Experiment Was Not
a Success.

Topeka, Kas., March 20.—[Special
Telegram]—The Daily Capital in a
leading editorial this morning says that
Rev. Sheldon's experiment was a failure
as a newspaper and not above the aver-
age as a religious daily. It declares
that the legitimate work of a newspaper
above all else is to give the news. It
announces that the Capital in the future
will go forward on the old lines.

BECAUSE OF SOME DOMESTIC TROUBLE

Frank Schad of Manitowoc, Killed His
Wife and Then Committed
Suicide.

Manitowoc, Wis., March 20.—[Special
Telegram]—Frank Schad and wife mu-
tually agreed yesterday to separate be-
cause of some domestic trouble. This
morning both were found dead at their
home. The presumption is that Schad
first killed his wife and then committed
suicide. He was very well off and thirty-
two years of age. His wife was formerly
Mrs. Albert Hackner of Cudo, this
county.

Quiet in Central America

New Orleans, La., March 20.—[Spe-
cial Telegram]—Late advices from Cen-
tral America say that everything is quiet
on the surface, and that the war scare is
blowing over.

SURVEY RAILROAD ALONG EAST SIDE

From the Spring Brook Addition the
New Milwaukee Road Survey Fol-
lows East Side of River.

Chicago, Milwaukee & St. Paul rail-
road surveyors are again in the city for
the purpose of locating a line into Janes-
ville. From recent surveys made with-
in the city limits the new survey comes
into the city on the Paul farm from the
town of La Prairie. The survey then
crosses the road that connects Main
street and Eastern avenue along which
the street car track runs. When once
on the east side of the river the survey
runs along the river bank as far north as
the foot of South Third street.

Here the surveyors crossed the river
in a straight line to the corner of River
and Pleasant streets. A prominent land
owner on the west side stated this
morning that the Milwaukee company
was trying to purchase land not far
from the corner of River and Pleasant
streets for the purpose of erecting a
passenger depot.

There is also much speculation as to
whether or not the company intend to
erect a depot on property that they own
near the Hanson factory.

PREFERS DEATH TO "SAPHO."

Chicago Actress Swallows Poison Rather
Than Appear in the Play.

St. Louis, Mo., March 20.—Because
she was unwilling to degrade herself
by appearing in a part in the play
"Sapho," Miss Jessamine Sweetser, an
actress 38 years old, and a member of
the Hopkins Imperial stock company,
took carbolic acid Monday afternoon.
Miss Sweetser's home is in Chicago.
Grant E. Stevens, a friend of the girl,
who is also from Chicago, said she was
greatly worried over being asked to
appear here in "Sapho" this week in a
minor part. Miss Sweetser is believed
to be out of danger.

POLICY OF WAR MUST BE UPHOLD

Bishop Potter Fully Agrees
With President
McKinley.

HE GIVES HIS REASONS

Visit to the Far East Convinces
Him That There Is No
Alternative.

He Was One of the Most Active Foes
of the Administration Policy—Found
Filipinos Not Competent For Self
Government—Inevitable Must Be
Accepted and Made the Best Of—
—Gives Praise to Gen. Otis.

New York, March 20.—Bishop Henry
C. Potter, who up to October last was
one of the most active foes of the Mc-
Kinley policy of expansion, said today
that he no longer opposed the determi-
nation of the administration to hold and
govern the Philippine and Hawaiian
groups of islands. Bishop Potter re-
turned to New York on Saturday after a
visit to Honolulu and Manila.

Bishop Potter declared that it is too
late now to relinquish those islands and
that the inevitable must be accepted
and made the best of.

Filipino Is Not Competent.

This belief was partly forced upon
him by a study of the Filipino character.
He was in Manila only a week and all
that time was under the guidance of
army officers. He is convinced that the
Filipino is incapable of creating as good
a government as the United States can
give him. The capacity of the Filipino
for self government, he declares, has been
overestimated.

When asked if his antagonism to the
retention of Honolulu and the Phil-
ippines had been changed by his per-
sonal observations he said:

"That has now become a purely ac-
ademic matter. I confess to saying that
I have put it on the shelf. It is per-
fectly idle now to linger on that discus-
sion. We must accept the inevitable.
The question now is, what are you going
to do now that you have got it? We
have got the responsibility of governing
the Philippines for better or worse. If
it is for the worse, all the greater is our
responsibility."

Bishop Potter at this point diverted to
the military operations and government
in the Philippines as directed by General
Otis. He lauded the General and em-
phatically declared it would be the
gravest possible mistake to replace for a
considerable period the present military
government with a civil government.

Praises General Otis

"The military operations in the Philip-
pines," he said, "will one of these days
be shown to be above all praise. General
Otis has proved that his policy of mov-
ing slowly has been the right one."

"If the Philippines were given a civil
government tomorrow we could not
take away the soldiers. There is bound
to be a military government there for
some time, and it is the best government
for the islands. I am glad to learn that
President McKinley favors a continu-
ance of military government; as it cer-
tainly would be a mistake to change it."

"The better class of Filipinos are sat-
isfied that American occupation means
increased prosperity and have ceased to
raise objections. They appear to under-
stand that there are no men in the island
who could give them in the way of gov-
ernment what we can give them."

NEBRASKA WANTS TO COLONIZE BOERS

Railway Officials Prepare to Send
Agents to Ask Them to Settle
in America.

Omaha, Neb. March 20.—When the
present war in South Africa is ended, as
it is supposed it will in the subjugation
of the Boers, Nebraska railway officials
anticipate that thousands of people of
the Transvaal will be desirous of getting
away from English rule, as they were
when they went into the African wilder-
ness, so they are preparing to send
agents to that country to induce them
to come to this country and settle in
the undeveloped portions and engage
either in stock raising or farming. They
are confident of securing several thou-
sands of these industrious and frugal
people.

Carnival Dates Fixed

Milwaukee, March 20.—The carnival
association directors last night fixed the
dates of the carnival for June 26 to 29
inclusive, and authorized Director Clas

manent carnival column in Washington
park at a cost of \$10,000.

Waste of Ammunition

During the Franco-German war the German artillery fired 240,000 shots, and the infantry 20,000,000. This terrible hail of shot and bullets, sufficient to exterminate a nation, resulted in a loss of 45,000 men to the French. Thus every Frenchman killed involved an expenditure of bullets sufficient to kill a regiment.—Collier's Weekly.

Wife With Eczema

Fire Could Not Have Been More Painful.

"After spending two years in taking all kinds of medicines that were suggested for eczema, but without avail, my mother was induced to take Hood's Sarsaparilla. The result was wonderfully gratifying. Her limbs had been terribly lacerated by the disease, and there were times when fire could not have been more painful. She was, in fact, almost wild. Two bottles of Hood's Sarsaparilla completely cured her, and not a trace of eczema was left." E. W. Decker, Gardiner, N. Y.

Eat Well, Sleep Well.

"Hood's Sarsaparilla has been a great blessing to me. I was weak, irritable, tired and nervous; had no appetite and was always sad and despondent. One day I got hold of a little book about Hood's Sarsaparilla. I looked it over and resolved to try a bottle. I was better before it was gone, so I kept on until I had taken five bottles. I can now sleep well, feel cheerful and can do all my work, including plain sewing, and I can walk two or three miles a day. I am 55 years old and now feel that life is worth living." .. LATE NEWS BY TELEGRAPH ..

PRESIDENT HEARS PEOPLE.

Declines to Urge Support of Puerto Rican Tariff Bill.

HOPE NOW FOR COMPROMISE.

Senator Beveridge Introduces a Free-Trade Amendment Which Is in Line with "Plain Duty" Recommendation in President's Message.

Washington, March 20.—The president will not assist the tariff men in whipping republican senators into line for the Puerto Rican tariff bill. President McKinley used his influence to get republican representatives into line after the house had been committed to the bill. It was by his assistance that the bill secured a majority in the house. The tariff men have since then sought to throw the whole responsibility upon the president, but the bill has become such an embarrassing issue that President McKinley has concluded to let it alone and not exert his influence for or against the bill in the senate. It was declared emphatically Monday that the tariff bill is not an administration measure, and that the president has not changed his official recommendations. He simply aided the republicans of the house to solidify their ranks after they had determined in caucus to pass a tariff bill. The senate republicans must decide upon their course without regard to the conflict between the recommendations of the president and the action of the house. He will accept the house bill and sign it if the senate passes it, but he will not use the power of the administration to bring free-trade republican senators into line.

With the president taking this position, the tariff men in the senate have been again thrown into confusion. They have counted on forty-two republican senators as certain to vote for the tariff bill, and with the votes of McEnery of Louisiana, Teller of Colorado and Jones of Nevada, they would have forty-five votes, or a majority. But this was on the basis of an administration bill, as there are six republicans who are opposed to the tariff, but will not vote against an administration bill. With the president refusing to father the bill, these republican senators will not vote for it.

Senator Beveridge of Indiana Monday proposed an amendment to the Puerto Rican tariff bill, providing for free trade between the United States and the island, but coupling with it a declaration that the constitution of the United States is not extended over Puerto Rico. It reads:

"All articles coming into the United States from Puerto Rico or going into Puerto Rico from the United States shall be admitted free of duty, but this act shall not be construed as extending the constitution of the United States or any part thereof over Puerto Rico, and it is hereby declared that the constitution of the United States is not extended over Puerto Rico." Mr. Beveridge gave notice in connection with the amendment to the Puerto Rico bill, which he offered, that he would address the senate next Thursday on the amendment and pending measure. Speaking of the amendment Senator Beveridge said:

"The object of my amendment is the same as that of Senator Davis' amendment, but the latter extends all of the taxation and revenue provisions of the constitution over Puerto Rico, and when any part of the constitution is extended, it is there forever. It may be that experience will demonstrate that we shall want to change the laws of taxation of Porto Rico, and if so, I fear that the extension of the taxing provisions of the constitution would prevent us. On all questions of power congress should be left with an absolutely free and unshackled hand."

Senator Beveridge Acted on Advice. Indianapolis, Ind., March 20.—Political admirers of Senator Beveridge are commenting on his Puerto Rican move in the senate. This step was not taken until he had consulted by letter a great number of republicans of Indiana. They told him that the state is for free trade with Puerto Rico, and this sentiment is said to have influenced his substitute.

Fond for Starving Puerto Ricans. Washington, March 20.—Commissary General Weston has issued orders for the shipment of supplies to the starving Puerto Ricans. So widespread is the distress that Gen. Davis telegraphed the war department on Saturday that 500 tons of supplies would be needed every week—four-sevenths rice, two-sevenths beans, one-fourteenth each bacon and codfish.

Seacoast Defense Appropriation Bill. Washington, March 20.—The annual appropriation bill for the support and extension of seacoast fortifications was reported to the house Monday. It carries a total of \$7,093,483, as against \$25,528,134 for the two sessions of the last congress, including the allotments from the \$50,000,000 national defense fund during the war with Spain.

Coin \$20,000,000 Subsidiary Silver. Washington, March 20.—Orders have

been sent to the United States mints at San Francisco and Philadelphia directing them to begin the coinage of the new small coins as soon as possible and to continue the work indefinitely. The new currency law provides that the total stock of subsidiary silver coins be raised to \$100,000,000. The amount now in circulation and in the treasury is about \$30,000,000.

Does This Strike You? Muddy complexions, nauseating breath come from chronic constipation. Karl's Clover Root Tea is an absolute cure and has been sold for fifty years on an absolute guarantee. Price 25 cts. and 50 cts. Sold by J. P. Baker.

No Permanent Christian Daily Yet. Topeka, Kan., March 20.—The row among the directors of the Topeka Capital has been temporarily patched up. The project of making the paper a permanent Christian daily has been abandoned; for the present at least, and today the make-up and general character of the paper is the same as it was before Sheldon took charge of it to conduct his experiment. Gen. Hudson's contract with the Capital company, it is now asserted, expires in July, and Mr. Popenoe's friends claim the trustee elected today will extend only till that time, when Gen. Hudson will be forced out as editor of the Capital and the paper will be converted into a permanent Christian daily.

Riot in Texas Convention. Dallas, Texas, March 20.—The Sixth congressional district convention, held Monday at Hillsboro, resulted in a riot. For several days the Green and Hawley forces all over the district have been getting ready for the Hillsboro contest. W. H. McDonald, known as "Goose-neck Bill," the negro leader of the Green side, sprang up and snatched a paper away from W. E. King, a negro leader on the Hawley side, and their friends took sides until the fight became a riot. Sheriff Bell and a squad of deputies, with drawn pistols, rushed into the convention hall and separated the fighters.

Thieves Secure \$1,000 in Daylight. Seattle, Wash., March 20.—At 2 o'clock Monday afternoon two men entered the First National bank in this city and, walking behind the receiving teller's desk, one of them engaged the teller in conversation while the other grabbed a package of currency supposed to contain \$1,000. Both escaped through the front door of the bank. No firearms were displayed by the robbers and no effort was made to conceal their features.

Judge and Sheriff Not Citizens. Waterloo, Ill., March 20.—The election contest case of Burroughs vs. Feldmeir for the office of sheriff of Monroe county has been continued for argument. The evidence shows that Paul C. Bray, former county clerk for twenty-four years and at present county judge, and Henry Niebruegge, former sheriff and the present assessor and treasurer, have never been naturalized.

Ran Away to Get Married. Carlisle, Ill., March 20.—This city has been thrown into excitement by the elopement of Miss Nellie Hays and Charles Follett. The young people are highly respected. She is 17 and he is 18 years old. Follett's father has disowned him, and says he never wants to see him. He had him in college, and expected to place him in a law school.

Work of Columbus Canal Began. Colon, Colombia, March 20.—Admiral Walker and the other members of the American canal commission sailed Sunday for Port Limon.

Among those present were Chancellor von Hohenlohe, the ministers of state, the ambassadors, professors, and representatives of the German, other European and American universities. Among numerous elections of foreigners were those of Josiah Willard Gibbs, professor of mathematics at Yale; Henry Augustus Rowland, professor of physics at Johns Hopkins, and Henry James, professor of psychology at Harvard, who were made corresponding members. The emperor announced the creation of chairs for study of the German language and literature, and highly praised its work of the academy.

Philadelphia Thinks She Is Ready. Philadelphia, March 20.—Gigantic arrangements are now well under way in this city for the reception and entertainment of the delegates and alternates to the republican national convention, which begins its session on June 19 next, and especially for the comfort and welfare of the thousands of visitors and republican clubmen to the city during the week of the big convulse. The program includes a monster parade on June 18, and a public meeting at the Academy of Music on the same night.

Becomes Sightless in a Day. Wabash, Ind., March 20.—Samuel A. Brown, councilman from the First ward and ticket agent of the Big Four road in this city, suddenly became blind Saturday night while on duty at the office, and he became entirely helpless. He thought the attack only temporary. He can see nothing, and the only hope the doctors hold out is he may recover in a few months. Tobacco is believed to have affected the optic nerve.

A KITCHEN OF
LONG AGO.How and What the Old New
Englanders Cooked.

BY JEANNETTE DEVOE.

A copy of an ancient cookbook, compiled by "Several New England Ladies" over a century ago and known as the "Pocumtuck Housewife," recently attracted my attention. I could not but wonder as I looked it over what would a good old housewife of those days do if she were suddenly put down in a modern city, surrounded by gas ranges, electric lights, elevators and steam heat instead of the old fashioned hearth with its deep chimney seats and blackened cranes, and were obliged to contend with the gastronomic propensity of the average household of today. Probably she would raise her hands in horror and wonder if, after all, the example of her thrift and industry had been sown on sterile soil.

The following directions were considered especially adapted to the needs of young housekeepers of the time of Cotton Mather and Priscilla Alden:

"It will not be out of place to suggest to a novice what will be expected in the way of meals in a farmer's household with a good many hands to feed.

"For Sunday morning in winter fry the hasty pudding that was left over from Saturday night's supper. Eat it with West India molasses or muscovado sugar. In summer fried pudding is too heating. Pancakes, with cider and sugar, are better. Flapjacks are good on holidays or when the men folks are not working hard. Weekday mornings farmers want some meat that can be cooked quickly, so as to let them go to the meadows before the sun is up. Salt mackerel and shad freshened overnight and boiled are good. When the shad catch comes, buy a barrel of them and salt them yourself.

"Johnnycake or hoeecake is a good change from rye and Indian bread. It says best to keep flour bread in

AN OLD FASHIONED NEW ENGLAND KITCHEN, the house, but with a large family of farmhands or apprentices it cannot be eaten commonly. Nut cakes are expected for breakfast and sometimes pye.

"Some families like to get up a great dinner on Sundays and have friends who drive to meeting from a distance come in for the morning. There is no objection to this if everything is prepared the day before. The meat should be plain roast, so that it can be started and left.

"A young child can tend the spit while the rest of the family is away. In winter the pyes should be put on the hearth before meeting, so as to thaw gradually. If you wish to avoid the necessity of keeping any one at home, get some rice porridge, or brewis and cold meat. This, with pye, is enough for any one on a leisure day.

"For a weekday dinner boiled corned beef and pork, with a pudding and reasonable vegetables, is a standard dish and always relished by workingmen. Lay in a good supply of turnips, cabbages, pumpkins and squashes.

"Calf's head and pluck make a filling meal. You can have fresh meat frequently, even in winter weather, if, when you kill a sheep or calf, you pass it around to the neighbors and they return the compliment when they kill. It is usually safer to wait for cool weather before killing beef and pork. Fowls are always to be had. When the team goes to Boston in the winter with a load to sell, have it bring back a 50 pound fresh codfish and a barrel of oysters, along with the molasses and sugar supply. The fish will keep frozen for weeks. A piece can be sawed off and thawed when needed. It can be salted down and is much better than store codfish.

"Arrange the cold meat and vegetables left from dinner on a large platter for the men folks. Saturday night they will expect hasty pudding and milk, or 'sawp' when corn is new. Brown bread and milk with pumpkin steamed dry, or baked sweet apples or huckleberries, are liked on a hot summer afternoon, especially if the milk is hung down the well and cooled. Pie and gingerbread and custards are good enough for common use. Keep a loaf of rich cake on hand for unexpected company.

"For a boiled dinner, at 9 o'clock make a good, steady fire that will last until noon. Place the pot on the crane and fill half full of cold water; add a large piece of corned beef or pork, and at 10:30 put in the cabbage, at 11 the carrots and turnips, at 11:30 the parsnips and potatoes. Place quarters of squash on the top. The dinner will be sufficiently cooked by 12 o'clock."

Simple and choice as these recipes are, there is as much resemblance between them and our modern day methods of cooking as there is difference between the old fashioned range and our drawing room gas logs. Both suggest the comforts of their day, which is, after all, enough to keep us in touch with those good old times.

MILK PEDDLERS MUST SECURE CITY LICENSE.

This is done to insure the selling of Pure Milk—Charles V. Kerch of Dixon, Illinois, Has Been Appointed City Engineer—Another Woman Takes a Tumble and Wants Pay.

At the regular meeting of the common council last evening all the aldermen were present except Alderman Peters. Considerable business was transacted.

City Engineer Perry F. Brown handed in his resignation which was accepted. To fill the vacancy Charles V. Kerch of Dixon, Ill., was unanimously elected.

An ordinance providing for the sale of pure milk was introduced and will be adopted at the next session of the council. The ordinance provides that every peddler of milk shall be licensed by the city, such license to be \$1 a year.

The city veterinarian is appointed ex-officio inspector of milk. The milk inspector will issue no certificate till he is satisfied of the healthy condition of the cattle and the sanitary condition of the stable in which they are kept.

Mrs. Anna Zaptoupi, residing on Palm street, has, through her attorney, E. D. McGowan, presented a claim for damages against the city. Mrs. Zaptoupi alleges that she fell as the result of a defective sidewalk on Western avenue.

G. C. HUBBS MAKES CHANGE

Former Janesville Man Now Located at Waterloo, Iowa.

The Madison State Journal now speaks of a former Janesville man as follows: "George C. Hubbs, who has gone to Waterloo to assume the charge of a considerable job printing plant which he has purchased, has been foreman of the job office of the State Journal for five years, and both with us and with the Democratic Printing company, for whom he formerly worked, came into the reputation of being the most artistic job printer in the city. Nice work has been his specialty; and the enthusiasm skill and taste with which he approaches a job calling for high class effects stamp him with real genius. The brilliant invitation and menu work, the literature of the Six O'clock club, has attracted much attention and for this Mr. Hubbs deserves the credit. George is a thirty-third degree mason, the son of a preacher and only deprived of a university education and a preaching career by the exigencies of life. He is a mature young man of twenty-three years of age, and we are greatly in his debt for his clean, cheerful, magnetic young manhood does not earn for him a leading place in the life of Waterloo, a city of about the size of Madison."

Mr. Hubbs is a brother of Mrs. Grace H. Hayner, daughter of John G. Hayner.

STREET CARS PATRONIZED

People Are Pleased to Again Have the Line in Operation.

Judging from liberal patronage today the people of Janesville evidently appreciate the starting up of the Janesville street railway which resumed business this morning after a two weeks shut down during which time extensive repairs were made to the boilers and machinery. Through the entire day the line carried more than its usual share of passengers. The outlook is for a most prosperous summer season.

BAKED POTATOES.

It frequently happens that cooks who can make complicated dishes to suit the most exacting are poor bakers at the simplest dishes. As potatoes contain starch, an important constituent of the food, which is easily soluble in water, they are much more wholesome baked than in any other way they can be prepared.

Boil the potatoes well in water and dry. Bake in a quick oven 30 minutes, or until they can be mashed between the hands. Do not prick with a fork, as this permits the steam to escape, which makes the potato heavy. It is best to have them ready before they are required, as they get soggy quickly.

THREE DEFENDANTS HAVE LEFT TOWN

POLICE WILL NOW ENDEAVOR TO LOCATE THEM.

Were Under Bonds of \$100 Each Furnished By John W. Hogan and Wm. H. Appleby—Their Case was Called In the Municipal Court This Morning and Adjourned.

When the case of the State of Wisconsin vs. Jesse Hall, Joseph Briggs and George Curley was called in the municipal court this morning the three defendants were noted for their absence.

Chief of Police Hogan then came forward and informed the court that he had learned that the young men had left town and for parts unknown. The case was then adjourned till 10 o'clock on the morning of March 27.

The missing defendants are all under twenty one years of age and were recently arrested on the charge of being drunk and disorderly. They are under bonds of \$100 each, such bonds being furnished by John W. Hogan and William H. Appleby. As soon as this case was adjourned on motion of City Attorney F. C. Burpee the case of the City of Janesville vs. John Connell was adjourned until April 4. It is alleged by the police that Connell sold the three

boys liquor. Just where the three boys have disappeared to remains to be seen and is a question that the police will try to solve.

When the case was called before Judge C. L. Fifield, the defendant entered a plea of not guilty. The case was adjourned until Saturday of this week, at 10 o'clock. The complaint was made by A. E. Shumway of this city, who held the mortgage. Bail was placed in the sum of \$100.

NEWS OF A PERSONAL NATURE

WHAT SHE WEARS.

Satin Popular—Art Velvet Bodices, Zinc & Chic Color in Cloth.

Satins are very much to the fore this season, satins soft and full of pliability—that draping quality—still not flimsy by any means. Velvets have grown light of weight and wearable and pliable, producing exquisite effects beyond anything dreamed of before. As for tints and tones, they have passed beyond range of speech. These two fabrics and panne velvet are the ones which will surely meet with no depreciation this season, and they are to be well supported by silks innumerable of every make, plain and figured, broadened and broche, together with the fancy maneuverings of braidings, appliques and embroideries of silk or in settings of lace.

Cloths are turned into laces by means of mechanical cuttings and mechanical embroidering in their latest smartness. Superimposed on white silks, satins or cloths, they are having a great success. This marks more pointedly than ever the two kinds of cloth gowns which have obtained highest favor, neither of them in sympathy with what we for years have been pleased to call the tailor gown. That rigid simple affair exists no longer among smart women. If a cloth gown of today has nothing but stitclings, these stitclings represent decoration in bands or motif, and

GREEN SATIN EVENING GOWN.

It must also show touches of lace or velvet. The gown which in cloth still advances beyond this one is a very dressy affair, a mass of openwork laid over white or colors. It has flouncings, mousselines, plisses, laces, tucks, mingling of silks, jeweled buttons and ornaments, fringed sashes and many other ornamentations applied by hand work or in passementeries.

The cut represents a pale green satin gown with circular drop skirt over tulle. Russian lace is inserted above the Spanish lace, and an applied conventional design in white, with a thread of gold, is used on the front panel, continuing round the flounce. A second line of very narrow edging, such as borders insertion, is also introduced on the skirt. The bodice is of satin, with a close fitting bodice, with lace inserting reaching to the waist line in the back. The revers are of tulle and shirred green chiffon caught by a white velvet bow. A cluster of white velvet poodles adorns the left side of the corsage, and another droops from the belt on the left side of the skirt. The belt is of white velvet fastened with a small gold buckle.

There is something very chic in a fancy waist built of art velvet, glowing with oriental coloring under a silvery sheen. These waists are extremely effective under street jackets. One has an open bodice, with seams down the back and under the arms, the back dipping into two short tails, a jeweled button on each. Long revers covering the fronts are built of lavender blue satin laid flat, held at the top by a jeweled button and a large one. The single dart seams are defined by five jeweled buttons, on each seam a jeweled motif, the buttons the same size as those on the back tabs. Vest and high collar band are in one of white crepe de chine overlaid by diamond crossings of beige lace, greatly in accord with the rich under, blues, purples and reds in the velvet. Close fitting blue satin sleeves have for epaulettes velvet triangles, the broad ends facing, with large jeweled buttons ornamenting each.

Zinc, one of the new cloth colors, is best imagined by recalling the metal. It affords a capital field for smart touches of color in the gown. Satin cloths in the zinc shade are a pronounced success, especially when silks are introduced, as is done in Paris—Vogue.

A Lady of Society.

Scene: An afternoon tea. Enter Mrs. Astor Street, bowing and beaming.

Mrs. Wornout: "Why, Mrs. Astor Street, how bright you look, and when I left you after Mrs. Fretry's luncheon you were nearly dead. What have you done?"

Mrs. Astor Street: "Secret—Guess."

Mrs. W: "Had a nap?"

Mrs. A: "No, guess again."

Mrs. W: "I can't guess, but such a secret ought to be shared."

Mrs. A: "Well, I'll tell you. Last winter I asked Dr. — what to take when I got so tired, and he said: 'A rest.' I asked him today and he said: 'An Orangeine powder, which was like magic, but perfectly safe, as he had seen the formula, and knew just what was in it.' I took one three hours ago, and have been on wings ever since."

Dr. Chas. C. Murphy, 632 31st Street, Chicago. "Have given 'Orangeine' several trials in cases of severe headache and dysmenorrhoea and find it the ideal remedy."

A. O. H. Horse in Sitting-Room.

New York, March 20.—William Fitzgibbons, a saloonkeeper of Williamsburg, was an aide on horseback in the St. Patrick's day parade in Brooklyn of the Ancient Order of Hibernians. When he reached his house, late at night, he insisted on taking the horse into his family's sitting-room, in the rear of the saloon. No persuasion could move Fitzgibbons from his purpose, and the horse went in. The horse was docile and did not show any resentment at being ushered into a furnished apartment. Policeman Miller took Fitzgibbons aside and told him that, while his intentions did credit to his heart, the horse would feel more at home if he were taken back to the stable. When Fitzgibbons was thus led to look at it in this light he allowed the stableman to take away the animal.

In 1864 he was appointed by President Lincoln as judge advocate in the army, and was special judge advocate in the trial of persons accused of complicity in the assassination of President Lincoln. In 1865 he was returned to congress, where he continued until 1873. In 1873 he received the appointment as minister to Japan, which office he served until his recall, in 1885, by President Cleveland.

Seattle, Wash., March 20.—Herman E. Taubeneck, long identified with the people's party and formerly chairman of its national committee, died in this city Monday. Mr. Taubeneck was a fine specimen of western manhood, vigorous and sturdy, and during the Weaver campaign he exercised a commanding influence. He was about 44 years of age.

Big Mills Are Destroyed.

Lima, Ohio, March 20.—Fire broke out in Orr's laced oil mill at Piqua Monday night, shortly before 11 o'clock. The flames spread rapidly until Gray's woolen mills were soon enveloped. The blaze spread across the street and became so threatening that the departments from Lima, Sidney, Dayton, Urbana and Springfield were called. The loss will reach several hundred thousand dollars.

Celebrated French Dominican Interred.

Paris, March 20.—The funeral services over the body of Father Didon, the celebrated Dominican preacher and author, were held Monday at the Church of St. Clotilde. The ceremonies were of the simplest character, in accordance with the wishes of the deceased.

British War Loan Subscribed Tenfold.

London, March 20.—In the house of commons Sir Michael Hicks-Beach, chancellor of the exchequer, announced that the government had received 39,800 applications for the subscription to the war loan of £20,000,000. The amount applied for was £235,500,000.

It isn't the bodily sickness that hurts a man. He could stand that fairly well if his mind were easy. But Americans are busy. They have work to do—plans to make—schemes to execute. They are "plungers." They live up their incomes as soon as they receive them or re-invest them with the idea of increase. They cannot afford to be sick. Sickness is a calamity—a financial calamity as well as a physical one. So the sick man worries, and the more he worries, the sicker he grows.

Worry is a good thing at the right time. The minute you feel a symptom of sickness—worry about it—do something about it—cure yourself. When you begin to feel run-down—when a twinge of rheumatism tells you plainly that your blood is impaired—when you are losing flesh and vitality, go to the nearest drug store and get a bottle of Dr. Pierce's Golden Medical Discovery. It is the greatest blood purifier and tissue builder on earth. It cures rheumatism and all other blood diseases by curing the cause. It purifies the blood and puts the blood making organs into good, healthy, working order. It tones up the stomach, works up the liver, helps the kidneys in their work and puts suffering nerves at rest. It contains no whisky, alcohol, opium or other dangerous drugs and does not, therefore, create a craving for stimulants or narcotics.

James E. Crumpton, Esq., of Sharpsburg, Washington Co., Md., writes: "I was in business in Baltimore, and had rheumatism for three months; couldn't walk at all. I tried the best doctors I could get but they did me no good. I took three bottles of Dr. Pierce's Golden Medical Discovery and it cured me. I came home to Sharpsburg and there were three cases of different diseases. I advised the patients to use Dr. Pierce's medicine, which they did, and all were cured. I have sold over one hundred dollars' worth of your medicine by telling people how it cured me. You can write to our druggist, Mr. G. P. Smith, in our town and he will tell you what I did for you in regard to selling and advertising your great remedies."

A Versatile Cook.

Cooks in Cayton must apparently be versatile persons, judging from the appended advertisement cut from a Cingalese journal: "Wanted: A billet as Cook and Appu, or either, by a married man, who holds Excellent Testimonials in Stuffing Animals. Can Stuff Elephant's Legs. Moderate Salary expected. Please apply to Fonseka, Ragala, Walepana."

ARTISTIC CLOSETS.

REMODELING THAT IS DESIRABLE IN HOUSES BUILT LONG AGO.

Plans for Transforming Old Fashioned Shallow Closets—Two Arrangements on Pleasing and Convenient Modern Lines.

In many houses built years ago are to be found closets extending from the floor nearly to the ceiling, inclosed by a door and generally filled with shelves. These closets, in many cases, are short affairs, the shelves extending

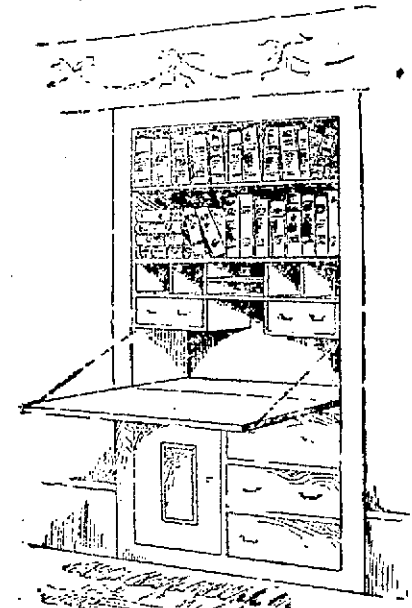

FIG. 1.—REMODELING AN OLD CLOSET.

out nearly to the door, while the width of the closets is not much greater than the doorway.

The accompanying illustrations show a plan for remodeling these closets along more pleasing and more convenient lines. The door is removed and in the one case a complete writing desk service is introduced. The lid, paneled on the outside, is supported by side chains when let down. Within this inclosure are two small drawers and numerous pigeonholes. Above are a couple of bookshelves, which may have a pretty silk draw curtain in front of them. Below are drawers and a closet that will be found very convenient.

In the case of the other suggested treatment the lower part of the closet space is made a receptacle for large mounted photographs or other unframed pictures, thus made readily accessible. Above are drawers for smaller photographs of paintings that are now so commonly to be found in cultured homes. Over these are shelves for books, covered by a draw curtain and

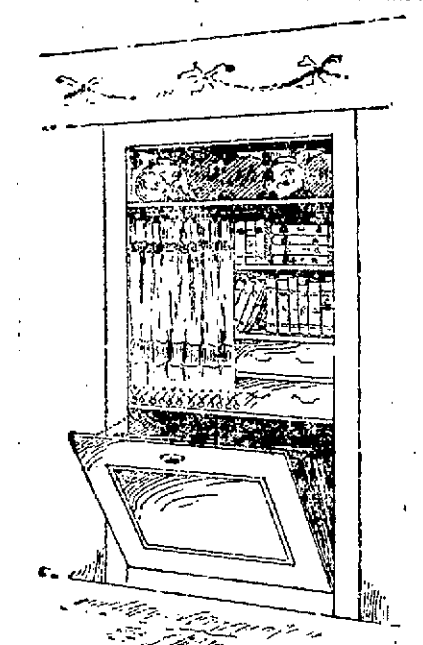

FIG. 2.—REMODELING AN OLD CLOSET.

an open shelf at the top where hand-some vases or bits of fine china can be displayed to advantage.

The foregoing items are offered by The Ladies' World, not as directions to be arbitrarily followed, but as suggestions that can be utilized in transforming one of these unattractive old closets into something pleasing and useful.

Tomato Cream Soup.

Tomato cream is a favorite soup for which the Boston Cooking School Magazine gives this recipe: Scald one quart of milk with half an onion, five or six cloves, a bit of bay leaf, a sprig of parsley and two-thirds a cup of stale bread crumbs. Remove the seasoning and pass the bread through a sieve. Cook two cups of tomatoes with two teaspoonfuls of sugar 15 minutes. Add one-fourth a teaspoonful of soda, pass through a sieve and add to the bread and milk. Add five tablespoonfuls of butter in bits and season with salt and paper.

Cauliflower With Cheese.

Trim off the outer leaves and soak, head downward, in salted water. Place in a saucepan, head up, cover with boiling salted water and boil gently but steadily until tender when tested with a fork, then drain. Break off the branches and put in layers in a baking dish with salt, pepper and grated Swiss or American cheese. Pour over all about a pint of white sauce, cover with a thick layer of buttered bread crumbs and place in a hot oven until browned. Serve as a course with saltine waters.—Table Talk.

Musical Taste.

"I am not educated in music, but I know when I like a piece," says many a one. Then try to be honest and learn to know whether your likes are founded in the canons of good musical taste. There is a right and a wrong principle of judgment, and every earnest person should try to base his opinion on sound principles.—Etude.

Metropolitan Absorb. Third Avenue, New York, March 20.—President H. H. Vreeland of the Metropolitan Street Railway company has issued a statement to the effect that the Metropolitan Street Railway company had secured a controlling interest in the Third Avenue Street Railway company. This will give the Metropolitan all the railways on Manhattan island and in the borough of the Bronx, as well as lines in Westchester county north of the city boundary.

Bell Telephone Company to Sell Out. Boston, Mass., March 20.—A call had been issued for the annual meeting of the stockholders of the Bell Telephone company, on March 27. The stockholders will be asked to authorize the conveyance of the company's entire real estate, ratifying the assignment to the American Telephone and Telegraph company of the property of the company other than the company's long-distance stock, and distributing the shares of the long-distance company in exchange for the stock of the Bell company.

Machinist Strikers Enlist in Navy. Chicago, March 20.—Since the strike began in Chicago Capt. Blockinger, in charge of the naval recruiting station in the Masonic temple, has received orders to enlist an unlimited number of first and second class machinists for the battleships now being built. The pay of machinists in the navy ranges from \$40 to \$70 a month, including rations and free medical attendance. It is believed that several hundred Chicago mechanics now on strike will avail themselves of this opportunity to secure permanent employment.

Vast Subterranean Landslide. San Jacinto, Cal., March 20.—A great portion of San Jacinto mountain has slipped into a subterranean cavern. Territory covering 600 acres, at an elevation of 4,000 feet, was dislodged by the Christmas earthquake and sunk 150 lower than it had previously stood. The face of this new valley is thickly traversed with fissures and cracks varying in width from an inch to six feet, which it is quite impossible to sound.

Bryan Birthday Feast.

Chattanooga, Tenn., March 20.—At the annual banquet of the Bryan Birthday Anniversary club tonight prominent Democratic leaders from many parts of the south sat down to a feast and with speech and song joined in the celebration of the fortieth birthday of William J. Bryan. The club received from Mr. Bryan a letter of regret at his inability to be present owing to his attendance at the Nebraska Democratic convention.

Calls It Act of Spoilation.

Detroit, March 20.—Judge Swan in the United States District Court today rendered a decision which denies the validity of an ordinance passed some months since by the city council requiring the street railway companies to reduce rates of fare to three cents. The court says there is nothing in the charter of the city which authorizes such an ordinance, and allows an injunction to restrain the city from enforcing it.

Plague Chases Chicago and Montgomery.

Washington, March 20.—Admiral Schley's flagship, the cruiser Chicago, accompanied by the cruiser Montgomery, has left Montevideo for Bahia, Brazil, whither they were ordered on account of the prevalence of the bubonic plague on the river Plata. The gunboat Wilmington will follow them as soon as she has been released from quarantine at Montevideo.

UNDERTAKING.

BRYAN RAPS NEW MONEY BILL.

Also Condemns Trusts and the Policy of Imperialism.

Lincoln, Neb., March 20.—William Jennings Bryan's speech before the democratic state convention in this city Monday dealt almost entirely with the three questions—money, trusts and imperialism. He charged the republican party with practicing a deliberate fraud upon the voters in 1896, by holding out the hope of international bimetalism, and said a national bank currency secured by government bonds could not be a permanent settlement of the currency question unless we had a permanent and increasing national debt. On the trust question he said: "The trust is so bad a thing that the president felt it necessary to denounce trusts in his message last December, but he did not recommend a remedy." Mr. Bryan presented and defended the remedy which he suggested at the anti-trust meeting in Chicago last fall.

The presidential candidacy of Mr. Bryan was formally endorsed, not only by the democratic and by the populist, but by the middle-of-the-road conventions.

NIGHT CASHIER GIRL KILLED.

Veiled Woman Shoots Point Blank and Escapes.

Chicago, March 20.—Annie Strother, night cashier in Louis Swan's restaurant, 150 Twenty-second street, was shot and instantly killed at 1 o'clock Monday morning by a well-dressed, heavily veiled woman. The murderers escaped. Jealousy is thought to have been the motive. Albert Clapp, a waiter, and Ellen Walsh, a scrub-woman, were witnesses of the crime. They were in the back part of the room and did not see the unknown woman enter. Miss Strother, the cashier, was behind her desk, and the first the waiter and scrub-woman knew of the visitor's intentions was when they heard the shots fired. The murderers fired four shots point blank at the cashier.

MISS HORLOCKER ON TRIAL.

Attorneys for Alleged Poisoner Fight in Vain for Continuance.

Hastings, Neb., March 20.—The Horlocker-Morey poisoning case came up for hearing before Judge Adams in the District court today. The defense exhausted every effort to secure a continuance, but was overruled on every motion and forced to trial. The defendant, Miss Viola Horlocker, who is charged with administering poison to Mrs. Anna Morey, wife of her employer, was accompanied by her sister, Mrs. H. Durant Cheever of New York. Miss Horlocker shows the mental strain she has been enduring since the day on which the alleged crime was committed.

Health is Wealth

When a promising opportunity presents itself or is found, seize upon it. The wise man is he who aims to maintain perfect physical health, rather than he who devotes all his energies in amassing wealth. A healthy beggar is happier than an invalid king. When health is ours we may win wealth, fame and happiness.

To take Magnetic Treatment one does not need a great deal of wealth.

Often-times people are cured of complicated diseases in a few treatments, and the charges are very moderate. Do not delay—the longer you put off getting health, the more difficult it will be to regain it.

CURED AFTER FOURTEEN YEARS.
